

REMARKS/ARGUMENTS

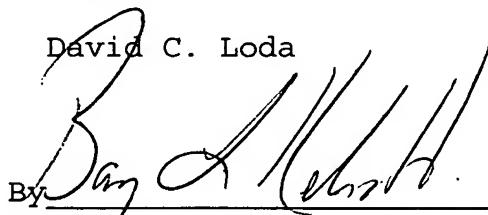

By the present amendment, claims 1-56 have been canceled in favor of new claims 57-100. The claims have been redrafted, now including one independent apparatus claim and one independent method claim. As such, the claims are now concise and comply with Article 6 PCT. No new matter has been added.

With regard the PCT Examiner's rejection to many of the claims, applicant has amended each of the independent claims to include the limitation that the server hosts a web page for wireless communication with a remote location by way of the Internet. Applicant further submits that such a limitation is neither taught nor suggested by any of the references cited in the International Search Report as evidenced by the PCT Examiner's indication of allowance of previous claim 39.

An early action on the merits is respectfully requested.

If any additional fees are required in connection with this case, it is respectfully requested that they be charged to Deposit Account No. 21-0279.

Respectfully submitted,
